Astronomy Center
Code of Academic Responsibility

I. USC Code of Academic Responsibility
It is the responsibility of every student at the University of South Carolina to adhere steadfastly to truthfulness and to avoid dishonesty, fraud, or deceit of any type in connection with any academic program. **Any student who violates this rule or who knowingly assists another to violate this rule shall be subject to discipline.** The discipline referred to in the preceding is separate from any grade penalty that we may impose (Usually an F and cancellation of all the work done for the term). This Astronomy Center Code incorporates by reference all provisions of the *University Code of Academic Responsibility.*

II. Computer Misuse
Any attempt to use an Astronomy Center computer or computer resources in a manner not consistent with the rules outlined in the study guide and orientation class will be treated as an academic violation.

III. Rules of the Evaluation Room
- You must put all personal belongings, except for your USC ID card, under your chair (i.e. study guides, receipts, book bags, purses, cell phones, keys).
- You may NOT use calculators on any evaluation or pre-lab.
- You may obtain scratch paper from the EV room staff when requesting an evaluation. This paper must be thrown away in the EV room after attempting an evaluation.
- You may NOT talk after an evaluation has been issued.

**Any student who violates the EV room rules or who knowingly assists another to violate these rules shall be subject to discipline and will forfeit their attempt on that evaluation.**

IV. Rules of Laboratories
- You must be in the lab room by the start time of lab. As a good rule, you might want to be in the lab room 5 minutes before the start time of lab.
- You must bring a calculator, USC student ID, pencil and all lab pages to every lab.
- You must have a valid pre-lab in order to take a lab.
- Labs are scheduled to last 2 hours. You must stay the entire lab time in order to get credit for lab.
- You may NOT sleep during the lab, interrupt other students, or copy other student’s lab work.

**Failure to follow the laboratory rules will result in you being removed from lab and forfeiting your reserved seat.**

I have picked up and read the course syllabus, and understand how the course functions. Also, I accept and understand the Astronomy Center Code of Academic Responsibility.
